

Sizing below applies to all bowling jerseys on our website. For products such as jackets and training shirts, please check the custom size chart within the product listing.

To find your Rift jersey size, lay any comfortably fitting jersey on a flat surface like the diagram below. The most important measurement is "A", which should be measured below the arms. Measurement "B" is taken on the back from the base of the collar to the bottom of the shirt. Please allow for a tolerance of 2cm. If you are unsure about what size to order, please contact us before ordering.
